LEARN
TO BECOME
AN ENGINEER

Université Paris-Saclay School

30 years in existence

CTI accredited

HIGH LEVEL OF STUDY

- Strong scientific knowledge base: mathematics, physics, economics, management, law, communication
- 4 engineering specialisms
- State-of-the-art technology hubs
- Several joint degrees in the 5th year in technical and managerial areas (Masters, MBA, etc.)

OUR 4 ENGINEERING SPECIALISMS

After a bac+2, future engineers incorporate one of four specialisms over 3 years.

Photonics & Optronic Systems

Electronics & Robotic Systems

Computer Science

Materials - Mechanics & Energy

THE ADVANTAGES OF POLYTECH PARIS-SACLAY

A school
on a human
scale

R&D
Projects

Projects
'Start-Up'

20%
joint courses
in the 5th year

Continuation
to a
PhD

THE POLYTECH NETWORK: 15 schools

Polytech Paris-Saclay is the internal engineering school at Université Paris-Saclay and has been a part of France's prestigious leading engineering training network since 2010.

BECOME A PART OF POLYTECH PARIS-SACLAY

On the preparatory cycle (Peip)

- After a General Baccalaureate via the GEIPI-POLYTECH competitive examination
- In the 2nd year after a PASS

Contact:

recrut-peip.polytech@universite-paris-saclay.fr

On the engineering cycle

As a student

- After a 'classe préparatoire'
- After a BAC+2, +3 and +4

Contact:

recrut-etd.polytech@universite-paris-saclay.fr

As an apprentice

After a BAC+2

Contact:

recrut-app.polytech@universite-paris-saclay.fr

As a continuing education trainee

After a BAC+2 + professional experience

Contact:

recrut-ftlv.polytech@universite-paris-saclay.fr

Innovate. Simplify. Partner.

AN ENVIRONMENT OF INNOVATION AND RESEARCH WHICH IS UNIQUE IN FRANCE

At Polytech Paris-Saclay, we see how our partner companies are involved with our students:

- Forum Bac+5
- Mock interviews
- 1 work placement during the preparatory cycle
- 3 work placements during the engineering cycle
- 3-year apprenticeships
- 2-year continuing education
- Promotional sponsorship
- R&D projects

GOING ABROAD, AN OPPORTUNITY NOT TO BE MISSED

Our students enjoy a period abroad as part of their studies.

- Several exchange agreements with prestigious establishments (work placements, study)
- Joint degrees

A VIBRANT COMMUNITY LIFE

Life at the school is characterised by the Student Union and its clubs **where you can enjoy your passions**: music, cheerleading, cinema, photography, sport, pops game, manga, kfc, outings, team-building weekends, mentoring,

programming, robotics and sustainable development, etc.

Life at the school is also about **events with other schools in the Polytech Network**.

Marie Nghiem

Acceleration Programme Officer
At Village by PCA

During my course, I've acquired the ability to research and to be open-minded. I've developed a desire to learn, while keeping a strong critical mind. Today, this means identifying, analysing and understanding business leaders and being able to mobilise the skills which can be activated to enable them to evolve.

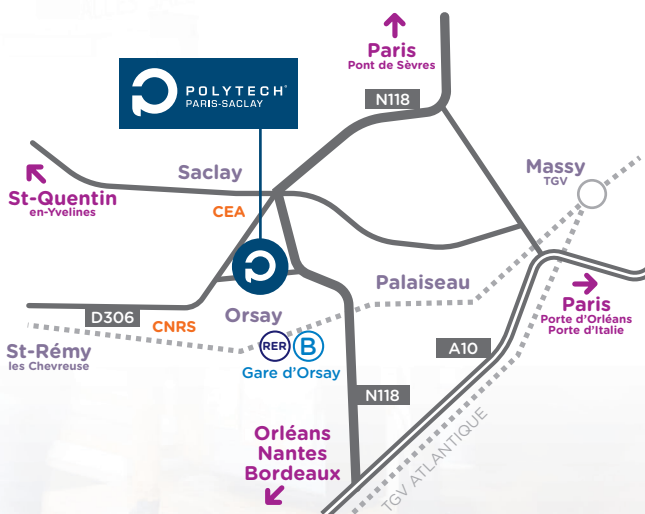

Olivier Garin

Head of Systems Engineering
At Thales

I've found that the balance between theory and practice, as well as working regularly in 'team project' mode made us very quickly operational within companies. This is an important asset for employers

Polytech Paris-Saclay is located in the heart of the scientific hub on the Plateau de Saclay, with its world-renowned research centres and laboratories, and just 20 km from Paris.
